

Adam Neuwirth

454 Vassar Ave
Berkeley, CA, 94708

Cell: (510) 684 2663
Email: ajn79@cornell.edu

Education

Cornell University 2018-2021

Computer Science, GPA: 3.60

Coursework: Honors Object-Oriented Design and Data Structures (Java), Honors Discrete Structures, Entrepreneurial Marketing and Strategy

University of California, Santa Barbara 2017-2018

Completed coursework in Computer Engineering, GPA: 3.74

Coursework: Calculus 1 & 2, Linear Algebra, Physics 1 & 2, Discrete Mathematics

Experience

Disruptive Growth Intern 6/2019 - 8/2019

ZX Ventures (www.zxventures.com) New York, NY

- ZX Ventures is a global growth and innovation group within AB InBev
- Worked on a team to develop a framework to co-create beverages with other brands and celebrities using ABI's capabilities. Developed partnerships with multiple external clients.
- Validated a product with the lean startup methodology and set up the production process

Summer Analyst 6/2018 - 8/2018

Arbor Ventures (www.arborventures.com) Hong Kong, SAR China

- Conducted market research and due diligence for hundreds of FinTech startups in Asia and observed the problems analysts face and the processes they carry out
- Based on our observations, worked with a team to design and create a set of data driven tools to augment human intelligence and automate routine work
- The system streamlined dealflow by evaluating the team, consumer perception, and momentum of new startups. Press releases, news stories, and industry publications were parsed and algorithmically analyzed
- Promising startups were added to Arbor Venture's deal flow process

Founder 6/2016 - 7/2017

Yumworks (www.yumworks.net) Berkeley, CA

- Designed, built, and monetized an entertainment and game portal used by over 200,000 unique users per month and \$72,000 in yearly revenue
- Site was acquired by an international website investment fund in 2017

iOS Intern 7/2016 - 8/2016

After School App (www.afterschoolapp.com) San Francisco, CA

- Migrated the codebase from Objective-C to Swift and documenting the process as well as common errors and their solutions
- Prototyped several versions of a photo viewing feature which allowed a user to quickly view as many images as possible

Projects

Congress Reveal (iOS App - 4.9 Stars, 1.5k downloads), SimpleCoin (Unreleased - Won Best Fintech App at Stanford Treehacks 2018), Cashflow Technologies (Automated ecommerce plugin - \$350 MRR)

Skills/Interests

Highly proficient in C++, Java, OCaml, Python, and Swift. Also skilled with web development (HTML, CSS, Javascript, jQuery)
